States that the Govt should undertake to finance the Military Restaurants Scheme, which requires an initial expenditure of Rs 30 000.

Annexure Restaurants in Mysore 1948 & 1949

What the Municipal Council proposes to do in connection with supplying vegetables grown in the Municipal Farm at moderate rates and to give a suitable site in Ambala Annexation pandal for the construction of a Canteen building

2) As the question relates to the starting of Restaurants to be financed by the Govt to the extent of Rs 30,000 the file will be returned to the Food Supply Asst with the above information

2) Refer para 16 of the notes above

26) A — may be done

Secy Food Supplies W/C

20/8/47

20/8/47

27) Submitted with reference to para 24 of the notes

As per orders in paras 14 and 15 of the notes (N) placed below in the file (RB9-45-6)

the Com^r Bangalore City Municipality and the President, Mysore City Municipality enquired whether they could inaugurate community feeding on the lines of the proposed "Indian Restaurants" where members of the general public could get a cheap, nutritious and balanced meal (Letter of 5.4.46 flag U) while the Bangalore City Municipality are of the opinion that the question may be dropped as the time is not quite suitable for the purpose, the Mysore City Municipal Council have approved of the idea to start Nutrition Restaurant in Mysore City, provided Govt finance the Municipality to the extent of about Rs 30 000/- to start with and have requested orders of Govt for the construction of the Canteen building at an estimated cost of Rs 20500/- As this question relates to public health, the file will if agreed be transferred to the Public Health Sec of the Medical Br. for further needful action

33) The opinion of the Food Controller would be obtained in regard to finalising the scheme to the extent of Rs 30 000/- from out of Food Grants Refer Paras 2 & 3 above

Mr Sundaram (illegible)

6/9 8/9

36) The Food Supplies section finalised matter maybe completed in the matter to the extent finalising Rs 30000/- only for Food Grants

37) Asst Secretary please bring up

(illegible)

38) It is seen from the letter of the President, Improvement Trust that the MI cl is not in a position to spend any money on the scheme of clearing Nuisance restaurants on the esp and construct the first 50 shops at an estimated cost of Rs 30000/. The council is prepared to supervise the working of the restaurants if started and supply vegetables grown on the MI farm at moderate rates and also give a suitable site in Lakshmanpuri for the construction of a Canteen building. It is a fact that the MI cl has no money to spend upon the scheme in view of its slender resources

39) The question of financing the scheme is one for consideration by Government and not for the L Sg (Municipal Branch) Deptt

40) The file will therefore be submitted to Govt

47 Retransmitted with compliments to the Secretary to Government, Education Department.

48 With reference to this question, I agree with the opinion of the Director of Food Supplies in Mysore in his letter No El 252-C.4061/46-47 dated 17th October 1947 viz , wherein he says that it may not be possible to put the scheme into operation in view of the present precarious food position and suggests that the question may be dropped.

49 In this connection, I should like to state that model restaurants are very necessary not only in Bangalore and Mysore but in all District and Taluk headquarter places These, however, should be organised and run by Municipalities in as much as, they are meant to teach the people the preparation of well balanced articles of diet and to demonstrate to them what exactly is meant by well maintained sanitary restaurants Indeed more than one such restaurants would be required in each of the Municipalities and if they are constructed and controlled by the Municipal authorities it will be possible to hold them up as models to hotel keepers and to insist on all such persons to conform their standards to those established in the model places

50 These institutions can be rented out to private parties and they are certain to bring good revenues to the Municipalities

Director of Public Health

8562

1293 17 ...

5] In view of the opinion expressed by the Directorate of H on the 4 o role the President City Municipal Council may perhaps be informed that the subject may be treated as closed and the file returned to Municipal Branch for taking necessary further action

52 A reply is due to the Regional Food Commr on the matter If approved he will also be informed that there is no objn of starting any model Restaurants for the present in the State The connected file is submitted separately for orders The file is also returned herewith

53 The Dr of P# suggests that such Restaurants are to be started, the name of the persons by whom and also in the several places In view of this the matter may be considered in the Mtg Dy # a reply sent to the Regional Food Comr & then the connected papers may be referred back to the Revenue Secy for further action

Sir,

Subject : Establishment of Community Feeding Centres

With reference to your letter No 5619/R 69-45 dated 9-1-1946 on the above subject, I have the honor to state that the question of starting a model nutrition Restaurant as suggested in the unofficial note of the 'Bureau of Public Information of Government of India' has been referred to a special committee consisting of the Vice-President, the Health Officer and Mr T Narasimha Iyengar, Municipal Councillor, for the working out the details of the scheme The Committee has been requested to examine

the question early and send up their proper R to the Council

A further communication will be made to you after the recommendation is considered by the Council

I have the honour to be,
Sir,
Your most obedient servant,

PRESIDENT

R Ramachandra Rao Bhombore B A

Subject - Starting of Nuitrition Restaurants

Adverting to your letter No 7387 dated 4th March 1947 and subsequent references, I have the honour to state that the question of starting a 'Nuitrition Restaurant' was examined by a Sub Committee appointed by the Council therefor As a result, the Committee placed a proposal to construct a Model Health Canteen Building along the western side of Arble Anniah Pandit's Park, so as to have access from the road side, at a cost of Rs 12,500/- and worked out details of initial and re-curring expenditure

The Managing Committee before whom the subject came up for consideration recommended the proposal with slight modifications regarding the construction of the building According to this, the Building is to have two floors - the ground floor opening into the park with an entrance at its east and the first floor having an entrance to it from the road-side The entire cost of starting the canteen was worked out to be at Rs 30,000/- as detailed below -

(1)Cost of construction of the building		Rs 20,500(as per suggestion of the Managing Committee)
(2)Initial expenditure for furniture and utensils etc ,		Rs 5,000
(3) Establishment consisting of		
One Manager		Rs 50/-
Two cooks one on Rs 30/-		
one on Rs 25/-		55
Eight servers on Rs 20/-		160
Four cleaners on Rs 15/-		60
Two sweepers on Rs 15/-		30/-
One watchman on Rs 35/-		35
		390

or Rs 400/- plus DA of Rs 250/-
or Rs 650/- p m

B/F

* (4) Purchase of Daily ma articles Rs 100/- p r d y
or Rs 3,000/- per mo th

* N B - An initial investment of Rs 5,000/- in respect of item o 3 and 4 is necess ry

Thus an initial investment of Rs 30,000/- is requir d

The Council before whom the subject c me up for their consid ration duly approved of the above proposal of the Worl being taken up by Government through the Health and Food Dep rtments, the Municipality rendering necessary help

In enclosing the copy of the resolution rec rding the above, I request you kindly to obtain necessary orders of Government in the matter

I have the honour to be,

Sir,

Your most obedient servant,

Sir,

Subject Nutrition Restaurants in Lysore City

With reference to your letter No L 1152 dated the 18th July 1947 on the above subject, I have the honour to enclose a copy of the note placed before the Council in this behalf which has been duly approved by them

The Council is of opinion that Government should undertake to finance the schere which requires a capital expenditure of Rs 30,000/- to start with The help that might be expected from the Municipality will be the supervision through the Health Department of the concern and supply of the vegetables grown in the Municipal Farm at moderate rates The Council have also agreed to give a suitable site in Lokasevaniratha Amble Anniah Pandit's Park for the consturction of a Canteen Building

I also enclose herewith the plan and estimate in respect of the proposed building, which has been duly approved by the Council at their meeting held on the 31st May 1947

In these circumstances, I request you kindly to obtain orders of Government for the construction of the building and also to start the kitchen as early as possible as there is a very great necessity for such an institution

I have the honour to be,
Sir,
Your most obedient servant,

T Narasimha Iyengar

NUTRITION RESTAURANTS

As one of the means of spreading knowledge of nutrition among the people, a proposal is under consideration of the Central Food Department to inaugurate a Government sponsored Restaurant at New Delhi in collaboration with Delhi Administration Balanced meals prepared under hygienic conditions will be served to the general public at cheap rates and it is hoped that other Provinces and States will start similar restaurants at selected centres in their respective areas

To the Restaurant will be added a Milk, Tea and Fruit Juice Bar, an experimental kitchen for demonstration purposes and a Nutrition Museum

It is pointed out that these nutrition restaurants will not compete with the catering trade, but that they would undoubtedly assist in raising the standard of hygiene and nutrition of commercial restaurants generally

HEALTH CANTEENS

With a view to avoid the use of cereals, particularly rice, in the present food shortages, and with a view to improve the dietics, the Health Canteens are proposed to be opened in all parts of the City It is a notorious fact that the food value in the South Indian diet is very low and requires to be improved very much

Location These health canteens will be for the present located in the Parks belonging to the Municipal Council and Trust Board A temporary structure to house the kitchen will have to be put up and it is expected not to cost much

Menu In these canteens, only the menu mentioned below will be catered to the public -

1 Bread, butter and honey
2 Toast and honey
3 Sandwiches (Vegetables)
4 Poori or Chapathi
5 Potatoes (a) boiled (b) Fried (c) Smashed Sweet Potatoes
6 Kosumbaries (Green dhall and Bengalgram dhall)
7 Uslis (Greengram and Bengalgram)
8 Vegetable
(a) raw (salad)
(b) boiled, containing lettuce, cucumber, radish, carrot, beans, tomatoes, lime, chilis, onions, coconut, green leafy vegetables
9 Fruits Tomatoes, papaw, bananas, oranges, figs,
10 Nuts Groundnuts, cashew,-nuts, almond
11 Tomato or vegetable soup
12 Drinks Buttermilk, pure milk, sherbaths, Tomato juice

The following table will furnish at a glance the calorific value and the vitamin contents of the articles of food-stuffs that go into the preparation of the menu -

20	Sprouted grams				+++	

The Vitamins A are destroyed by prolonged heating and exposure to air Vitamins B and C are destroyed by boiling

A simple combination of bread, butter, honey, tomatoes and buttermilk as a beverage will easily provide 240 calories of food which will be about 1/4th of the food as now given to the public by the present Food rationing system and the cost also would not be more than annas 4 for the menu

Further, all the articles will be available throughout the City and requires very little cooking

The cost for the health canteens will not be much and will be the cost of the equipment necessary for running the canteens If the Government does not want to take up the responsibility of running such canteens, it would easily persuade, private enterprise to take up the running of these canteens by giving them a lumpsum grant that would cover the cost of equipment

These canteens will stand in good stead when the usual hotels cannot be run on the present lines These will be a stepping stone to replace them on scientific basis

To

The Secretary to Government,
Revenue Department, Bangalore

Sir,

With reference to your letter No D 14369/W1E1 dated 24th June 1946 on the subject of opening Nutrition Restaurants in Bangalore City, I have the honour to inform you that a Note has been sent to the Municipal Commissioner in this office No. C 160-1/467 dated August 10, 1946 A copy of the Note is enclosed

I have the honour to be,
Sir,
Your most obedient servant,

Director of Public Health

Subject - Opening of Nutrition Restaurants in Bangalore City

That the vigour of a Nation depends fundamentally on its nutrition state and that good food is perhaps the best of drugs in the cure of most of the common ailments, have now been placed beyond all doubt An examination of the cases that turn up to the hospitals and dispensaries for treatment has always revealed that a large proportion of them are suffering from conditions traceable to malnutrition Contrary to expectation however, these cases are not limited to the poorer classes only A considerable number of the ~~deficiency~~ well-to-do classes also have been found to be suffering from deficiency conditions, showing that abundance of food is not the sole criterion in dietitics and that there is and can be "Starvation amidst plenty" unless certain other conditions are satisfied

Deficiency is of two kinds Deficiency in quantity and deficiency in quality The health is impaired by either of these and if, therefore, the nutrition state has to be maintained at a high level, ~~the~~ attention will have to be given to both

The facts that deficiency conditions are noticeable even during times of plenty and that they are present among the poor as well as the rich, shows that the subject is one of importance, not only for the present when there is distress, but for all times Further, Nutrition being a subject of national importance, it is the responsibility of Governments to give this vital problem its due place in all their nation building programmes

The nutrition restaurants which are now being thought of should therefore be a permanent feature and be made to serve a double purpose The first is, of course, to make them

them serve an immediate need to solve the problems which have arisen as a result of famine conditions and the second, which is in the nature of a long range policy, wherein they can be used as a propaganda to educate the people in matters pertaining to practical dietetics The object of these restaurants should be to supply nutritious food, prepared under expert supervision, at cost price to the people and to demonstrate to them how, with their existing incomes they could purchase food articles of proper dietetic value and the manner in which they could be prepared to suit the palate There is nothing new in the proposal These restaurants only correspond to the 'Industrial Canteens in England' and to the 'British Restaurants' that were started in the same country under the control of Government during the war

Present requirements - It is of course difficult to think of a balanced diet at this time when the staple cereal foods are not obtainable in adequate quantities In order to supply the necessary calorific value it has become necessary that other articles are used as supplements As these are mostly commodities to which the community is not generally accustomed, it requires a great deal of persuation and propagarda to get it used to these The chief function of these restaurants during this period of crisis is to demonstrate to the public the methods of combining and preparing palatable dishes out of the available food articles many of which are new to them, so as to raise the calorific value of the intake to as nearly the required figure as possible and also to see that the articles do not lose their vitamin contents and mineral matter They have, therefore to experiment and evolve new recipes for preparing palatable and nutritious dishes out of these food stuffs and arrangements must be made to give the widest publicity to these Travelling kitchens are recommended in order to propagate this knowledge to the people of the country-side as well whose needs are equally great and who will otherwise not be benefitted by these experiments

~~active~~

as the contemplated restaurants are to be situated at any rate for the present in cities only

Wheat, groundnut, maize, jola are some of the articles to which people of this country are not generally used to as staple articles of food in places where they are not grown, and as these are now being imported as the only available supplements, it is necessary that these restaurants try experiments under proper supervision utilising these substituted foods either by themselves or in combination with the articles that are available and evolve recipes to prepare healthy, nutritious and delicious dishes

The approximate quantity of food consumed by an average individual as per the pre-war diet and the present Rationing, is listed with the respective heat values

The pre-war diet consisted of the following quantities yielding 3,075 calories of heat

Particulars	In Ozs	Calories	Heat Valu
Rice	12	100	1,200
Wheat	4	100	400
Sugar	2	110	220
Pulses	2	100	200
Milk	4)		
Curds	4)	20	160
Potato	2	25	50
Vegetables	6	12	72
Ghee	2	255	510
Condiments	½	60	30
Fruit	1	13	13
Total			2,855
Meat	2	40	80
Eggs	2	70	140
Grand Total			3,075

The quantity of heat derived from the above diet is more than ample Some people used to consume more than 1 lb of Cereals which correspondingly yielded more heat

Meat Eggs when added to the above diet yielded more

more heat amounting to 220 calories per day

Analysis of diet as per recent rationing

Particulars	In Ozs	Calories per oz	Heat value	Protein	Carbo hydrate	Fat
Rice	8	100	800	14	180	-
Sheat	4	100	400	22	85	-
Pulses	1	100	100	5	15	-
Milk	4	20	80	3	45	3 5
Curds	4	20	80	3	45	3 5
Potato	1	25	25	4	25	-
Vegetables	6	12	72	4	14	-
Ghee	2	255	510	-	-	50 0
Sugar	1	110	110	-	25	-
Condiments	¼	60	15	1	1	1 0
Fruits 1	1	13	13	0 2	3	-
Total	32¼	815	2,205	56 2	438	58 2
Meat	2	50	80	10	-	12
Egg	1¾	47	70	6	-	6
Fish	2	50	72	11	-	2
Total	5¾	147	222	27	-	20

The actual absorbable calorific value of the above diet may be about 1,800 to 1,900 This diet can be divided into 2,3, or 4 meals according to habits and needs of the individual viz , Lunch and Dinner, Breakfast, Lunch and Dinner, or Breakfast, Lunch afternoon tiffin and Dinner Out of 12 Ozs of Cereals, 4 Ozs may be set apart for Breakfast, and light refreshments in the afternoon and 4 Ozs for Lunch and 4 Ozs for Dinner The morning breakfast should consist of Chapathi, Uppittu Dosai or Idd̆li with a side dish like Potato curry, Sagu, Chatni etc , One Chapathi can be prepared out of 2 Ozs of Wheat Flour The above preparations can be made alternately to break the monotony

The usual midday meal consists of Rice, Dhal, Soup, Pepper water and butter milk or curds Dhalls or Pulses should be used in greater quantity as the diet is deficient in Protein which is essential for the repair of tissues and growth of body The pulses can be prepared in a variety of ways such as Huli, Boiled Dhall, Chatni and saru bengal gram, green gram, Mack gram Dhall and Legumes, should be used for this purpose The vegetarian lacks Protein and in order to increase it, the quantity of Milk should be increased

Milk is a difficult and expensive commodity to obtain and until it can be made available in sufficient quantities, the use of milk powder wherever obtainable should be encouraged

The amount of Carbo-hydrate in the above diet is deficient This can be made up to some extent by encouraging the consumption of Potato or Sweet potato If fresh Potato is not available, de-hydrated potatoes may be imported

Rice should not be milled Hand pounded rice or par boiled rice is much better Par boiled rice should be preferred as it retains more of vitamins Further, a minimum quantity of water should be used for boiling rice and repeated washing of rice should be avoided before boiling Kanji if removed may be mixed with butter milk which forms a very good beverage

A variety of preparations can be made out of wheat viz Chapathi, pounded wheat boiled and used as rice, uppittu, dosai, kesaribath, are some of the palatable preparations Chapathi made according to the Udipi cooks requires considerable quantities of fat but the Gujarathi type called 'Rhoti' requires little and may be adopted Biscuits can be prepared from wheat The advantage is that biscuits are dry foods and can easily be preserved and carried These may be salted or sweetened, according to taste Sugar if not available can be substituted by jaggery

In most of these preparations experiments should be made to mix the flours with ground nut cake powder and other edible starchy articles which may be available to increase the bulk and the caloric intake making them delicious and at the same time wholesome

The rich can afford to go in for costly fruits but pappaya, tomato, jack, goa, plantains, raw cucumbers, (and melons if available) should be made available to the poor and middle class at a cheap rate ~~These are very good and should be made available to the poor and middle class at a cheap rate~~

These are very good and should be encouraged to be grown on an extensive scale Jack which grows wild and in abundance in the Malnad should be put to better use by arranging for its collection, transport and distribution in the scarcity areas

The consumption of vegetables particularly, greens, like Amaranth and other spinaches (soppu) should be encouraged These not only provide a certain amount of carbo-hydrate but also vitamins and calcium and the roughage necessary to prevent constipation ~~The~~ Greens are cheap and easily grown Brinjals, Beans Onion, Beet-root, Carrot, Gourds, are some of the vegetables, the consumption of which should be encouraged These can be prepared in a variety of ways to suit every plate The consumption of tubers should be encouraged

The position of the non-vegetarians, is very much better ~~They can supplement the~~ Their diet can be supplemented by fish, mutton, eggs etc Even if one consumes 2 Ozs of mutton, one egg and 2 Ozs of fish a day one can obtain 27 grams of Protein and 20 grams of fat, in addition to that derived from the controlled diet and one gets 202 calories of heat extra It is however seen that the deficiency is quantitative but the proportion between protein, carbo-hydrate and fat is roughly maintained

Restaurants should be opened in central places where the dishes can be prepared under expert supervision and offered for sale at cost price At the same time the preparation of the various types of food can be demonstrated to the public A Milk Bar, a counter for selling butter milk, Lemon Squash, Sherbets, a Coffee Bar etc , can be opened as adjuncts to the Canteen and a Museum exhibiting the raw materials indicating their food value can be opened with advantage This will give an idea to the public of the foods that could be consumed by them and their food value It has immense educational value and propaganda can be carried on at the same time The radio should be made use of freely for purposes of propaganda and small pamphlets and hand bills can be got printed and distributed free Charts and posters on Nutrition,

deficiency diseases and their prevention can be posted

Travelling kitchens on motor lorries with microphone attachments will be most useful as they can be made to move from place to place in the city and thus help in spreading this knowledge more speedily among the people

OFFICE OF THE PRESIDENT
CITY MUNICIPAL COUNCIL
MYSORE

From

Date 8th August, 1946

R Ramachandra Rao Bhombore, Esq , B A
President City Municipal Council
MYSORE

To

J B Mallaradhya, Esq , M A ,
Secretary to Government,
Revenue Department,
Bangalore

Sir,

Subject Starting of Nutrition Restaurants

In continuation of my previous letter No M5 C 528-12(45-46 dated the 5th June 1946 on the above subject, I have the honour to state that a note was placed by the Health Officer before the Health Committee to the effect that seven Restaurants, one in each mohalla be started The details of its working are explained in the same, a copy of which is enclosed for reference At their meeting held on the 9th July 1946, the Committee who examined the proposals, resolved that "the proposals be forwarded to Government with council resolution to the effect that they are prepared to give necessary help like a suitable site and a small subsidy to a recognised concern " and the same was approved by the Council at their meeting held on 27-7-46

I enclose copies of the resolutions thereof for favour of information of Government

The Health Officer has been requested to find out if any of the establishments concerned are agreeable to take up the work and if so, the kind of help that they expect from the Government and Municipality etc , and submit a detailed report very early for the consideration of the council

I have the honour to be,
Sir,
Your most obedient servant,

PRESIDENT

BS

A brief note on the starting of Nutrition Restaurant and Community Feeding Centres in Mysore City

---

At first, it is proposed to start one restaurant in each mohalla and to gradually increase the number if there is need

It is proposed at the outset to locate the canteen in a rented building or buildings owned by the Municipality in conevenient places For the present, we can start these canteens in some of our municipal Parks, with milk bars attached

A temporary structure may have to be put up wherever ready accommodation is not available The structure will resemble the University Restaurant by the side of the Maharaja's College Union, and it may cost at least Rs 5000/-

Equipment to the extent of Rs 5000/- will be required as furnished by the Indian Coffee House, authorities The canteens will be located at the following places -

1 Lashkar Mohalla	Kantharaj Park
2 Mandi	Meelad Bagh
3 V V Puram	Cheluvamba Park
4 Fort and Nazarbad	Nishadbagh
5 Chamaraja	Manu Vana
6 Krishnaraja	Childrens Playground near Sisuvihar, Lakshmipuram
7 Mandi	Town hall compound (southern side)

The menu to be served at the canteens will be on a simple basis -

1 Chapathis or puri, bread toast, sandwitches
2 Fried groundnuts, potatoes or boiled vegetables
3 Fruits, tomatoes and papaya etc
4 Butter milk

It is estimated that the cost of each meal will not exceed As 4/-

While the Municipal Council are very desirous of running the Health Canteens, they regret their inability to finance the scheme from their budget in view of large commitments they have on hand Each canteen will involve an initial non recurring cost of Rs 10,000/- and it is requested that the Government might bear the entire cost and give a lead to the novel enterprise

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat

No L 13264 *Dated Bangalore* 28 5 46

FROM

The Secretary to the Government of His Highness the Maharaja of Mysore
Revenue Department.

To

The President,
City Municipal Council,
Mysore

Sir,

Subject:- Resolution tabled by Mr T Narasimha Iyengar, Municipal Councillor, re the opening of Health Canteens in Mysore city

---

With reference to your letter No C 508-126/45-46 dated 30th April 1946 forwarding for orders of Government a copy of the above resolution, I am directed to observe that no action can be taken on a resolution of this kind which has been merely transmitted to Government without your opinion or definite proposals in this behalf, furnishing the essential particulars viz., the number of canteens to be opened, the financial implication thereof and the extent to which the Municipal Council would finance the scheme, etc.

I am therefore to request you to submit definite proposals in the matter, in consultation with the Director of Food Supplies and the Director of Public Health

I have the honour to be,
Sir,
Your most obedient servant,
Sd J S Mallaradhya

Secretary to Government,
Revenue Department.

Memo No. L 13265-6-8 28.5.46

Copy of the above is forwarded, with compliments, to the Director for information. Copies of the note referred to above and of the resolution are enclosed

By Order,

Secretary to Government,
Revenue Department

tvr

tvr.3.

Note by Mr. T.Narasimha Iyenger on Health Canteens

With a view to avoid the use of cereals, particularly rice, in the present food shortages, and with a view to improve the dietics, the Health Canteens are proposed to be opened in all parts of the City It is a notorious fact that the food value in the South Indian diet is very low and requires to be improved very much

Location These health canteens will be for the present located in the Parks belonging to the Municipal Council and Trust Board A temporary structure to house the kitchen will have to be put up and it is expected not to cost much

Menu In these canteens, only the menu mentioned below will be catered to the Public -

1 Bread, butter and honey
2 Toast and honey
3 Sandwiches (Vegetables)
4 Poori or Chapathi
5 Potatoes (a) Boiled (b) Fried (c) Mashed Sweet Potatoes
6 Kosumbaries (Green dhall and Bengalgram dhall)
7 Uslis (Greengram and Bengalgram)
8 Vegetable
(a) Raw (Salad)
(b) boiled containing lettuce, cucumber, radish, carrot, beans, tomatoes, lime, chilis, onions, coconut, green leafy vegetables
9 Fruits Tomatoes, papaw, bananas oranges, figs,
10 Nuts Groundnuts, cashewnuts, almond
11 Tomato or vegetable soup
12 Drinks Buttermilk, pure milk, sherbaths, tomato juice

The following table will furnish at a glance the calorific value and the vitamin contents of the articles of food-stuffs that go into the preparation of the menu -

		Calories per ounce	Vitamins A	B	C	D
1	Butter	208	xxx			
2	Bread	70		X		x
3	Honey	81		x		
4	Raw Vegetables					
	Lettuce	4	xx	xxx	xxx	
	Cucumber	3		x		
	Radish	5		x	xx	
	Carrot	10	x	x	xx	
	Beet	9		x	x	
	Tomato	6	xx	xxx	xxx	
	Lime	5		x	xxx	
	Chillies				xxx	
	Potatoes	36		x	xx	
	Coconut	167	x	xx		
5	Buttermilk	10	x	x	x	
6	Pure milk	18	xxx	xx	x	x
7	Sherbath	15				
8	Papaw	20		x	x	
9	Banana	11		x	x	

p t o

			A	B	C
10	Orange	12	x	x	xxx
11	Figs	67		X	
12	Apples	15	xx	x	x
13	Tomatoes	6	xx	xxx	xxx
14	Cashew nuts	133		xx	
15	Groundnut	155		xx	
16	Almond	182		xx	
17	Wheat	102	x	xx	
18	Grams	96		xx	
19	Oils	200			
20	Sprouted grams				xxx

The Vitamins A are destroyed by prolonged heating and exposure to air Vitamins B and C are destroyed by boiling

A simple combination of bread, butter, honey, tomatoes and buttermilk as a beverage will easily provide 240 calories of food which will be about 1/4th of the food as now given to the Public by the present Food rationing system and the cost also would not be more than annas 4 for the menu

Further, all the articles will be available throughout the City and requires very little cooking

The cost for the health canteens will not be much and will be the cost of the equipment necessary for running the canteens If the Government does not want to take up the responsibility of running such canteens, it would easily persuade, private enterprise to take up the running of these canteens by giving them a lumpsum grant that would cover the cost of equipment

These canteens will stand in good stead when the usual hotels cannot be run on the present lines These will be a stepping stone to replace them on scientific basis

---

Proceedings of the Adjourned General Meeting of the Municipal Council heald on Tuesday the 2nd April 1946 at 9 A M

929 Resolution tabled by Mr T Narasimha Iyengar, B A ,B L , Municipal Councillor -

"This Council requests the Government of His Highness the Maharaja of Mysore to open or to subsidise the opening of Health Canteens in different parts of the City"

Moved by Mr T Narasimha Iyengar
Seconded by Mr P Naravanaswamy

passed by majority
